

Competency Enhancement Courses

- ? Don't have time for a long course, but want to spend some time reflecting on and improving your teaching practice?
- ? Want to dip your toe into "e-learning" before committing to a longer course?
- ? Need specific information to help you manage your classroom better as soon as possible?

**In-service and aspiring educators, our CECs are for you!
Choose from any of the following six-week long courses:**

From Zero to Six: A guide to the four domains of child development

Stand on the Shoulders of Giants: ECE practices, their origin and significance in today's classrooms

Guiding Behaviour: An art or a science?

Teacher as an Architect: Designing effective curriculum and lesson plans

Observation: The secret ingredient in effective classrooms

It Takes Two: Building home-school partnerships

An ECE Special Education Primer: The power of being alert and acting early

Courses

Competency Enhancement Courses

The Details:

Professional Development opportunity

No exams, only authentic, work-place based assessment
